Project Overview:

The Maryland Stadium Authority is leading a comprehensive redevelopment of the Pimlico Race Course to transform it into a year-round, world-class racing and community destination.

In partnership with McKissack & McKissack and THG Companies, Clark Construction is leading construction management services. Design by Ayers Saint Gross, Populous Holdings, and RK&K.

Upcoming Construction Activities

- Preventative pest control measures are ongoing and will continue throughout construction.
- Groundwater dewatering for the new tunnel will continue with no impact to domestic water utilities. Adjacent property owners were notified per MDE permitting requirements.
- Utility infrastructure installation and related sitework will continue through Summer.
- Concrete foundation and retaining walls will continue through the Spring.
- Steel erection, masonry, and building envelope will continue for the backstretch buildings.
- Tunnel excavation is complete and concrete operations are shifting from the service yard to the tunnel.

Anticipated Outages & Impacts

- Utility work on Queensbury Avenue and Belvedere is expected to begin in June pending permit approvals. Road closures on Queensbury Avenue are expected.

Wash Stall Wonders: High ceilings, fresh wash stalls, and plenty of room for horsing around.

Redevelopment of the Pimlico Racing Facility

Standing down so everyone can step up. For Construction Safety Week (May 4–8), the Pimlico Construction team stood down to focus on being "All In Together" when it comes to worker protection and incident prevention.

Project Milestones

May 2026	Backstretch Barns PVC Fabric Roofing Began
May 12, 2026	Pimlico Race Course Open Interviews
